Who We Are:

Solar Junction is Australia's most rapidly growing solar retailer. Our mission is to assist you in making a positive impact on the environment while also investing in your future.

We provide residential and commercial clients with high-quality, reasonably priced solar technologies to achieve clean, environmental-friendly and affordable solar solution.

Our team of skilled solar energy professionals and excellent customer service representatives strive for excellence. Our quick installation procedures, excellent customer service and technical expertise have allowed us to become a leading company dealing with residential and commercial solar PV systems.

Our Aim:

We at Solar Junction are committed to reducing Australia's reliance on fossil fuels. Our goal is to supply the most advanced and high-quality solar PV systems, while providing exceptional service to all of our current and future residential and commercial customers.

We believe in supporting the implementation of solar technology so that our customers can benefit from an ecologically sustainable power supply while tackling rising energy expenses and the climate crisis.
