Southern Cross Automotive Repairs is a one-stop auto shop in Mascot for trustworthy car services and car repairs, employing highly skilled technicians who are certified and equipped to handle all major and minor car repairs. We are specialists in modern computerised auto-electrical servicing. Whatever the issue, our company's car electricians use the latest technology to interface with your car's computer and quickly diagnose and repair the problem. We also offer a dealership type service, without the high labour costs and are specialists in Japanese/Asian cars and European car services. There's no need to go to a dealer. We will stamp your Log Book (also known as your owner's manual) after every service, ensuring that your New Car Statutory Warranty or Extended Warranty remains valid. And you will save up to 30% on dealership prices.

We're open M-F 7:00am to 5:30pm. For more details, visit our website at <https://www.southerncrossautorepairs.com.au/> or call at (02) 9669 5935.
